EVERDIGM CRAWLER DRILL

Build the Future ! EVERDIGM

Everdigm was started in 1994 and over the years have grown to the point where our products are now being exported to more than 60 countries in the world. At Everdigm, we work with our valued customers and partners to provide innovative and customised drilling solutions for many and specific applications. We are driven to supply quality drill rigs and components to the surface drilling and mining industries. Customer satisfaction is always at the forefront of our interactions with our clients.

Increased Productivity

Everdigm specialises in manufacturing and supplying top-hammer drills. Our network of drill rigs are backed up by our qualified staff. We pride ourselves on our extensive technological knowledge and we provide comprehensive technical support for all of our drilling rigs. Our engineers worked in close communication with seasoned contractors in the field to design the ECD series top-hammer drills featuring the re-known Montabert drifter, coupled with the powerful Caterpillar C7 engine, with ROPS/FOPS certified cabin with user-friendly control panel, making it one of the safest, most user-friendly drill rigs available. Everdigm continues to develop these rigs based on the end-users requirements, keeping the focus on dependability and productivity.

Item	ECD35
Bit Diameter	50 - 89 mm (2" - 3.5")
Rod Diameter	T38
Rod Length	3,050 mm (10')
Drilling Depth	18.3 m (59')
Drifter Model	ED-150 (EVERDIGM)
Drifter Impact Power	16 Kw
Free Air Delivery	5.4 m ³ /min (190 cfm)
Boom Type	Fixed
Operating Weight	11,500 kgs (23,350 lbs)
Engine	CUMMINS 6BTA5.9C

Item	ECD40E
Bit Diameter	64 - 102 mm (2.5" - 4")
Rod Diameter	T45 (T38)
Rod Length	3,660 mm (12')
Drilling Depth	22 m (72')
Drifter Model	ED-150 (EVERDIGM)
Drifter Impact Power	16 Kw
Free Air Delivery	6 m ³ /min (212 cfm)
Boom Type	Extension
Operating Weight	13,500 kgs (29,762 lbs)
Engine	CATERPILLAR C7 (CUMMINS 6BTAA5.9C)

Item	ECD45E
Bit Diameter	75 - 115 mm (3" - 4.5")
Rod Diameter	T51 (T45)
Rod Length	3,660 mm (12')
Drilling Depth	22 m (72')
Drifter Model	HP150RP (Montabert)
Drifter Impact Power	21 Kw
Free Air Delivery	8 m ³ /min (282 cfm)
Boom Type	Extension
Operating Weight	14,000 kgs (30,860 lbs)
Engine	CATERPILLAR C7 (CUMMINS 6CTAA8.3C)

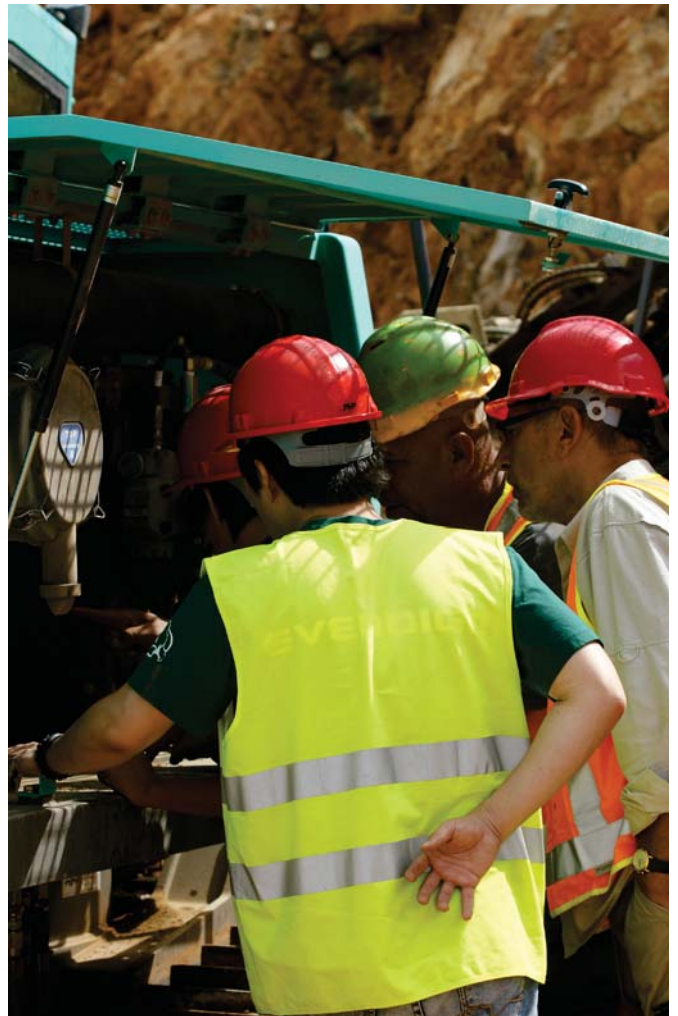

Versatility

Operator safety and ergonomics contributes to our drill rigs' high long-term value. Simple and rugged, Everdigm also offers features such as angular and depth measurement, rotation and direction finder, all tailored to the customers' specific requirements.

From its very beginning, the line was never about just selling a machine that drills holes. It was always about the customer's profitability and machines that added value efficiently. We have engineered drill rigs with more operator comfort, fuel economy, and ease of maintenance in mind.

Serviceability and longevity

One of the greatest factors for customers is to have the least amount of downtime and to achieve this we have designed heavy duty parts, especially for harsh working conditions. All hydraulic hoses are heavy duty and exposed hoses are wrapped with a protector. The engine compartments boast big spaces, which makes for easy maintenance and all filters are located at easy reachable position for daily check-ups. The attention to detail leads to smoother drilling, directly contributing to increased productivity, as well as machine longevity.
